MUSIC ADVENTURE 17

Interval Hop!

Count the letters between two notes to name each interval. Ages 8-10.

Interval: the distance between two notes. Count the letters from the first note to the last, including both. Example: C-D-E is 3 letters, so C to E is a 3rd.

1	**C to D**	Count: ___ ___ ___	2nd 3rd 4th 5th
2	**C to E**	Count: ___ ___ ___	2nd 3rd 4th 5th
3	**C to F**	Count: ___ ___ ___	2nd 3rd 4th 5th
4	**C to G**	Count: ___ ___ ___	2nd 3rd 4th 5th
5	**D to F**	Count: ___ ___ ___	2nd 3rd 4th 5th
6	**E to B**	Count: ___ ___ ___	2nd 3rd 4th 5th
7	**F to C**	Count: ___ ___ ___	2nd 3rd 4th 5th

Bonus: Which jump is bigger, C to G or C to E? Play both on a piano and listen to how they sound different.
